Motion to Supplement reconsideration for compassionate release.

I am requesting that you add this medical Triage form as additional Support Supplement of the pending Motion for my Reconsideration of compassionate release. Please file this evidence as part of my Motion to reconsider Compassionate release. As this evidence shows that my last lab result from Oct, 2020 my Viral load is at 730, which is an increase from 487 (3/13/2020). I Suffer from HBV. My Viral load has continued to rise and with the current outbreak here at FCI II Butner with over 100 + cases of the Coronavirus I am afraid I will contract the Covid 19 virus which will put me at Grave danger. FCI II has not taken the proper steps to ensure my Safety, they've failed Inspection recently and they have not given us proper Sanitary equipment. My HBV condition has become worse. I ask that you please consider me for Compassionate release.
